

INTERNATIONAL SYMPOSIUM ON EDUCATION

The symposium aims to learn about useful trend that has led to improvement in education across the world.

To strive towards a good education system which improves the quality of human resources in a progressive and equitable way.

To give feedback to stakeholders of the Education Industry (Government, Publishers, Educational Institutions, etc) on how they can evaluate their current practices and adopt new ones to improve learning outcomes.

To identify the challenges and improvements needed going forward to keep our education system relevant in terms of pedagogy and technology in this everchanging world.
